

System Training Services

Your route to improved staff and project performance

Systech has helped contractors improve their commercial and contractual standards through targeted and focused training. We work with contractors to design and deliver bespoke training programmes to address specific areas of staff improvement and upskilling in good commercial/contractual practices and procedures. We adopt a preventative approach, offering project workshops that ensure the delivery team fully appreciates the specific obligations and risks of a scheme before work commences and that contract compliant procedures are in place and understood.

Our approach to training

- Focus on client learning objectives
- Events delivered by construction professionals with hands-on knowledge of subject
- Comprehensive range of topics
- Use of interactive sessions with workshops
- Sharing of knowledge and best practice
- Range of training solutions – company-wide bespoke programmes to tool box talks

We provide high impact training that covers the fundamental requirements for successful project delivery

- Understanding forms of contract
- Tendering and establishing the baseline
- Contractual and commercial awareness
- Profit/loss, payments and cash flow
- Early warnings, notices and change control
- Programmes and effective control of time
- Subcontract and supply chain management
- Project records and margin maximisation
- Claims management
- Dispute avoidance and resolution

We do not adopt a “one size fits all” approach...our training will be specific to your requirement

- Bespoke training programmes
- Specialist topics
- Project workshops
- Professional and academic qualifications
- Lunch and learn
- Breakfast seminars
- Work placements

What our clients say

"The lecturer was passionate and his confident commentary, based on practical experience, was impressive".

"Very well presented from someone who has an in depth understanding of what happens, practically on site, as well as what should happen"

"Really glad I attended. The best training I have had in years' and it will help my professional role within the organisation"

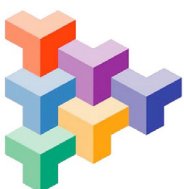

"One of the most informative training courses I have been on"

"This is the best JCT review course I have been on. Great job!"

"A very well prepared learning exercise with excellent delivery which far exceeded expectations!"

"I am going home with an armful of knowledge"

"The case study and real project examples were very helpful"
