

BREAKFAST SEMINAR

MEDIATION AND DISPUTE BOARDS

Building on the huge success of our previous breakfast seminar's, Systech is pleased to announce its latest offering on the topic of Alternative Dispute Resolution (ADR).

This time we will be focusing on mediation and dispute boards, which are now widely recognised as legitimate alternatives to more formal dispute resolution processes.

Our seminar will define the roles of these ADR procedures in a modern construction industry and will outline the benefits and downsides to each.

- What is mediation and when can it be binding?
- How does a dispute board really work?
- Who makes the rules and when should we use them?
- How do the courts perceive these forms of ADR?
- How can we get the most out of these processes?

Venue

Paris

Fédération Nationale des Travaux Publics
Room "André Borie"
3, Rue de Berri
75008 Paris
